

4/27/99

Dear Commissioner Denny,

I am writing to you today
to ask that you help put an end
to the practice of feeding dead
pigs and horses to cows and
other farm animals. Cows are
not meat eaters by nature, and
this practice has already taken a
toll not only on the cows but
on humans as well. To date, 33
people have already died from the
new variant of Creutzfeldt-Jakob
disease contracted from cattle
infected with BSE. I ask that
you take action to protect other
innocent people from dying
this way.

Sincerely,

Faune Parry
